

# ISPRS Technical Commission II Symposium

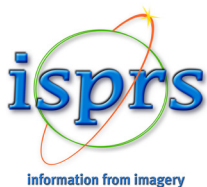

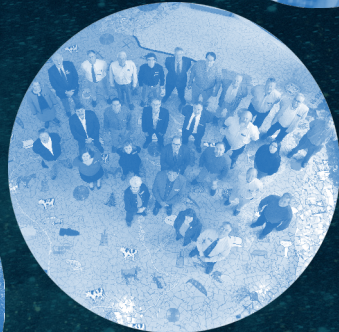

*The Role of Photogrammetry for a Sustainable World*

June 11–14, 2024 | Las Vegas, Nevada | Flamingo Las Vegas Hotel  
[isprs.org/tc2-symposium2024](https://isprs.org/tc2-symposium2024)

The symposium's theme is "**The Role of Photogrammetry for a Sustainable World,**" emphasizing machine learning and mixed reality. The event is organized in collaboration with **ASPRS** (American Society of Photogrammetry and Remote Sensing) and **SGPF** (Swiss Society of Photogrammetry and Remote Sensing).

**ISPRS Technical Commission II** "Photogrammetry" focuses, at various scales, on geometric, radiometric, and multi-temporal aspects of the image- and range-based 3D surveying, mapping, and modeling in the age of Artificial Intelligence and Mixed Reality. We welcome researchers, practitioners, and companies in photogrammetry and computer vision to present and discuss their results with a broader audience. The Symposium will feature four days of plenary, keynote talks, and parallel sessions of oral and poster presentations from academia and industry.

We are confident that this symposium will be a valuable event for your company. The keynote speakers committed for the symposium include **Hannah Kerner** from Arizona State University and NASA Harvest, **Andrea Fusiello** from University of Udine, and **Tanya Birch** from Google Research. We have 5 more speakers that we will announce soon.

# ISPRS 2024 SPONSORSHIP OPPORTUNITIES

## PLATINUM LEVEL

### Gala Sponsor

- \$5,000
- 2 complimentary registrations
- Corporate logo on symposium website and marketing materials
- Recorded demo/advertisement at the event
- Exclusive page under symposium website
- On-site corporate logo use/endowment(s) on stage during announcements
